Summary

Digital designer with over five years of experience across brand identity, web design, UI/UX, photography, and digital content creation. Comfortable taking projects from blank page to live product, including the development and build work most designers hand off. Track record of working across music, fashion, fitness, and creative industries with a consistent focus on outcomes over outputs.

Experience

Anubis Fitness

Stanmore, UK

Freelance Web & Digital Designer

January 2026 - Present

- Redesigned and rebuilt the gym website end-to-end, replacing a bare-bones template with an industrial identity: high-contrast colours and angular shape language chosen to differentiate from generic local gym sites.
- Implemented in WordPress with custom HTML, CSS, and React components, owning both design and development.
- Fixed a broken Stripe integration and rebuilt the membership signup flow, increasing active memberships from 100 to 130 within two months of relaunch.

Saddington Baynes

Hybrid

Web & Digital Designer (Contract)

October 2025 - January 2026

- Designed and built six pages in Framer, all currently live on saddingtonbaynes.com, working directly with the CEO and senior team to translate creative direction.
- Introduced a horizontally-scrolling project gallery on case study pages, adopted as the studio's new standard for showcasing 3D and CGI work.
- Built a reusable component library and layout system used across web and marketing during a brand relaunch.
- Restructured site navigation through wireframes and prototypes in Figma, streamlining user journeys and accelerating design approvals. Web & Digital Design.

MightyEVE

Hatfield

Marketing & Design Intern

June 2024 - August 2024

- Designed e-commerce banners, newsletters, and campaign visuals in Photoshop, Illustrator, and InDesign within a small team, working to brand guidelines and tight deadlines.
- Supported photoshoot planning and asset production, coordinating between the CEO and wider team to shorten turnaround from shoot to published content.

Freelance

Remote

Freelance Digital Illustrator & Graphic Designer

January 2020 - July 2024

- Designed brand identities, logos, and visual systems for independent clients across music, fashion, and creative industries, including Percy London (streetwear) and Rosé Mixing & Mastering (music production).
- Shot and edited campaign photography for Percy London's clothing launches, handling creative direction, shoot planning, and post-production.
- Produced streaming and digital assets for music clients, including livestream overlays, promotional graphics, and social content.
- Designed UI/UX concepts across web and app formats including speculative projects for e-commerce and entertainment brands.
